		A	MOT	AHT	BE	VI	N
Q13	How often did you attend this class?	14	4	2	1	1	22

Responses: [A] Always [MOT] Most of the time [AHT] About half the time [BE] Before exams [VI] Very infrequently

Q14 - What, if anything, did you find most valuable about this course?

Response Rate: 47.83% (11 of 23)

1	We learned many things that apply to the real world, and I feel that it will help me in the future.
2	This course is well organized and well taught by the professor. He is always willing to help, and his teaching method is very understandable. The exams are easy, just everything taught in the class.
3	Shows an application of economics in a different field. Professor has professionalism and is excited to teach the material.
4	Professor really easy to reach out to and taught the material well.
5	Opened me to a different approach to the application of economics. Very interesting
6	Learning a lot about insurance and health
7	It was interesting to see the different economic models.
8	I think the textbook was really useful when I missed a class as it explained the topics really well.
9	I like the chalk and writing on the black board and talking to us makes it more interactive and interesting
10	How fast someone can write with chalk
11	He is a thorough teaching professor

Q15 - In what ways, if any, could the course be improved?

Response Rate: 52.17% (12 of 23)

1	more online notes posted
2	less chalk writing, more ppt
3	hand write notes is hard to understand
4	Use of technology. No reason why half the class should be taken up by writing in chalk for every single word. Providing a text to follow along with. Use of videos and other materials BESIDE CHALK. Way too much information in each class period, too much to process in just an hour
5	Proving slides on the topic of the day will help us look over after
6	Professor did not have any slides. Had to really rely on textbook.
7	Post class notes online. Penalizing attendance occasionally with grades makes sense but taking away notes too makes it hard to keep up at times even while attending class every day
8	Nothing needs to improve, I enjoy his teaching
9	More statistic practice
10	I think that this course is well taught. If I could improve the topic maybe it would be to have more practice questions because I really only worked on the assignments and the practice midterm.
11	I think returning HW and exams could be nice. More emphasis on reading textbook
12	I feel that smaller assignments weekly or bi-weekly would help learn the material better and also improve grades.
